FREE EVENTS

Winter Workshops for Kids

Where kids get tech-savvy and have fun

Highlights

YouthSpark Winter Camps

Learn to Code with Jetpack Jumper

This free, two-hour camp for beginner and intermediate campers introduces them to the secrets of game design for mobile phones and tablets. (This workshop is a prerequisite for Dream It, Make It.)

Dream It, Make It

This free, four-part camp series for kids at every skill level lets them use the same tools as gaming industry pros to code their own games.

Hour of Code with Minecraft

Kids ages 8 and over use blocks of code to take Steve or Alex on an adventure through a Minecraft world, igniting their creativity, logic, and problem-solving skills.

YouthSpark Field Trips

Kids get hands-on experience in coding and designing their own games and apps with the latest technologies, including Kodu, TouchDevelop, and Project Spark. Contact your Community Development Specialist, Carolyn Bighinatti at Microsoft at Danbury Fair.
